SPRING BRINGS BIDS AND NEW LIFE
NEW YORK CITY AUCTIONS ON TAP

The Market in Depth

We are only a few weeks into spring, and it is evident that the rare coin market is showing new life. Supporting Bids at current levels are certainly more prevalent. In fact, many Bidders are even willing to pay *above* current levels for coins with **exceptional** eye appeal. As collector want lists grow, dealers become even more determined to acquire coins as carefully and expeditiously as possible. The demand for premium quality coins is very strong. Today's collector and collector/investor are more knowledgeable about rare coins. They are looking for coins that have original surfaces and an abundance of Mint luster. Savvy collectors also want coins to be better than average for the grade, possessing that extra bit of pizzazz that coins sometimes have. These exceptional coins often realize runaway Bids during public auctions.

This week, we are witnessing plus signs throughout the market. Specific needs have yet to be satisfied. Dealers are exploring all avenues at their disposal hoping to complete a transaction, including raising Bids when necessary. The majority of the nation's major dealers are currently in Minnesota attending the Central States Numismatic Society 61st Anniversary Convention. Most attending this show share the same goal, which is to acquire fresh material; the newest coins in inventory turn the fastest.

Public auction provides another valuable source to locate a specific date and grade. Two more spring auctions that are scheduled in New York will no doubt provide further excellent opportunities. On May 10-11, Stack's will conduct an auction of United States Gold, Silver and Copper Coins. It will feature the Carl Bayuk collection of Vermont Coppers; selections from the Cheshire collection; the E. George Elliott collection, Part II; and the "J&J" collection of Silver Dollars. On May 11, R.M. Smythe will host the "Nebraska Part III" New York City Spring Coin Auction #198. It will feature a $5 Half Eagle collection from 1802/1-1908.

This Week's Market

MERCURY DIMES: Winged Liberty Dimes are stable. The 1916 D in MS64 which increased last week, has support at this new higher level.

WALKING LIBERTY HALVES: Walkers are quiet again this week. Support remains strong, particularly in AU50 and MS65. At present, there are no positive or negative adjustments to discuss.

DOLLARS: Generic Cartwheels in MS60 are in demand. Small increases are very plentiful for these coins. The remainder of the Morgan Market is stable. While support for MS63 Peace Dollars is strong, some slight decreases are present for common MS64 and MS65 examples. Silver Eagles in Proof are rising again, as they have for weeks now. 1994 and 1995 examples are Bid at $88.

PROOF SETS AND MINT SETS: Once again, our charts for Proof and Mint Sets are full of Bid jumps. Believe it or not, there are actually a few minus signs to see, but these decreases are few and slight.

COMMEMORATIVES: Silver Commems remain active, though this market is not showing as much volatility as it was for our last report. 1892 and 1893 Columbian Exposition examples have gone up in MS64. Stable support for recent increases remains in place for Gold Commems. MS63-MS66 specimens are receiving very strong acceptance for current Bid. Modern Silver Commems are relatively stable, with some positive activity for several 1996 D Olympic issues in BU. Five Dollar Gold Commems are another story. Virtually every issue is down in both BU and Proof.

TYPE: Uncirculated Type remains stable with plenty of Bidders paying current prices. A few increases can be found in MS64, a grade which also has the greatest amount of support in this market. The Proof Type market is quiet this week, with strong support, especially for Three Cent Nickels.

GOLD: U.S. Gold Type is showing weakness throughout the market, with one exception — the $20 Saint-Gaudens High Relief is up in MS60, MS64 and MS65.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen or "raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. Any one transaction at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already include consideration of certification costs. Bids for a sight seen "raw" coin may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding activities of the last bidder, but will be normally influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60–Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63–Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average [illegible]

MS64–Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65–Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67–Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional [illegible]

CENTRAL STATES SHOW MIXED
PROOF SETS CONTINUE SURGE

The Market in Depth

Dealers are returning from the 61st Anniversary Convention of the Central States Numismatic Society. The convention included the Heritage Signature Sale, held May 4-5, which brought a little over $4 million while the May 6 Bullet Sale added another $350,000. Many who attended the Central States Convention returned with mixed feelings.

Most felt that the May 4-7th Minneapolis show had a very slow start with not much public in attendance. Many said that their expectations were not met. According to one dealer, wholesale trading died because there was no fresh material. However, the show gained strength with each passing day. By Saturday, activity had increased. Dealers were hungry for coins and were on the prowl, hoping to buy coins to fill customer want lists and inventory needs. Unfortunately for many, not enough fresh material was available to satisfy that demand.

Several dealers were unable to spend the amounts of money that they had budgeted for Minneapolis. Interestingly, though, there was a large number of smaller transactions taking place, which is encouraging for the market. Conversely, coins over $5,000 were very weak with declining interest for common date/grade rarities. Dated Gold was also one of the weaker areas. However, specialists in this area point out that fresh, original and well struck dated Gold can face exceptional demand by knowledgeable collectors and dealers.

Demand for collector material at the show was very strong, clearly demonstrating that strength is tremendous for any fresh collector coins. These coins are readily selling in the $1,500 and less range. Indian Head Cents, Dated Lincoln Cents, Barber coins and better date Seated material are some of the collector coins that dealers would love to buy. Attractive and interesting Bust material is also in demand. A few higher priced areas are in demand as well, such as $20 High Reliefs, key date Morgans, select Type and MS65-MS67 Gold Commems to name a few. Quantities of this kind of material would certainly be welcome.

This Week's Market

CENTS THRU HALVES: BU Roll Bid jumps abound on our chart once again this week. In fact, popularity for Rolls is spreading throughout the market. Quarters and Halves now have to share the spotlight with the lower denominations, which are clearly gaining strength.

MERCURY DIMES: Stability remains for Mercury Dimes. There are no adjustments to report at this time, and support, as usual, is very strong throughout.

WALKING LIBERTY HALVES: Similar to Mercs, Walkers are very stable presently, with current levels receiving widespread acceptance. A small increase for the 1937-S in MS63 stands out as the only plus sign on our chart this week.

DOLLARS: Small increases continue for common MS60 Morgans. Conversely generics are declining in MS64 and MS65. With the exception of some weakness in XF and MS64, Peace Dollars are stable.

PROOF SETS AND MINT SETS: Proof Sets remain robust, with only a couple of small decreases; the majority of this market is being flooded by raised Bids. Mint Sets seem to be slowing somewhat. The market is definitely strong, with several Bid jumps and solid support, but the number of increases has gone down recently.

COMMEMORATIVES: The market for Silver Commems has leveled for the moment. Recent volatility, mostly in the form of higher Bids, has acceptance, effectively stabilizing these coins. Gold Commems show numerous increases in MS65-MS67. The remainder of this market is very stable.

TYPE: Mint State Type is generally quiet. Support is strong and plentiful, but no major movement has taken place. Proof Type is predominantly stable as well, and support is widespread, though a few positive and negative adjustments have taken place.

GOLD: Some weakness still exists for U.S. Gold Type. MS65 is the hardest hit grade. Again, the $20 Saint-Gaudens High Relief is strong, with further increases in MS63 and MS64.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise average rolls are worth less than listed prices; 'gem' rolls often bring more. In the Jefferson series, some of the rolls in the late '50's tend to be dark—these bring lower prices. 'gem, full steps' rolls, when available, bring higher prices. In the Mercury series, 'original bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls, dull or 'put together' being lower prices. Coin for coin, Roosevelt rolls, particularly the 'S'-mint issues, are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Washington prices are in the Q/H.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXVIII No. 20 May 19, 2000 *. . .a Friday morning report on the Coin Market*

TYPE IN STRONG DEMAND
AUCTION REALIZES $1.39 MILLION

The Market in Depth

Type is *very* strong throughout the market. Plentiful increases as well as a large number of supporting Bids are evident this week. Dealers are willing to pay fairly strong money for solid grade Type coins. Those coins that have not been cleaned and are relatively free of heavy scratches are quickly bought. Unfortunately, dealers are finding it very difficult to buy the coins they need even at these levels. Why? They believe that most Type is especially strong in the $1,500 and less category. This dollar range seems to be very affordable for most collector/investors. Demand is coming from both new and existing participants. Type collecting is an excellent way to buy coins because it allows for a diversified portfolio.

Copper Type is realizing interest from Draped Bust Half Cents thru Two Cent pieces. Increases and support are heaviest for coins grading AU50 thru MS65. Dealers are readily buying copper coins from Brown thru full Red. Pleasing Brown coins are in demand if they are not too dark. Half Cents and Large Cents are needed with many plus signs appearing this week. Other Type coins in demand include 3-Cent Nickels, Shield Nickels, Liberty Nickels, Silver Liberty Seated coins, and Barber coinage. Draped Bust and Capped Bust material always seem to be in strong demand.

The Stack's May 10-11 auction in New York claimed nearly $1.4 million. Early American Colonial Coins grabbed some five-figure prices realized. Some additional highlights are listed.

STACK'S Date	Denomination	Grade	Price Realized
1856	Flying Eagle Cent	Gem Proof	$20,700
1858/7	Flying Eagle Cent	Very Ch. Unc.	$13,800
1916-D	Mercury Dime	Ch BU, FB	$ 5,290
1918/7-S	Standing Liberty Quarter	Ch BU, FH	$29,900
1795	Flowing Hair Half Dollar	Ch BU	$24,150
1921-S	Walking Liberty Half Dollar	Ch BU	$ 9,775
1900	Lafayette Dollar Commem	Gem BU	$ 7,475
1856-D	$1 Indian Head	AU	$ 9,200
1861-D	$1 Indian Head	BU	$23,000
1854-S	$2.50 Liberty	VG	$31,050
1838-D	$5 Classic Head	BU	$16,675
1898	$20 Liberty	Gem BU	$10,925

This Week's Market

MERCURY DIMES: As has been the case for the last few weeks, Mercs are stable and quiet. Bidders remain content to pay current levels for numerous dates across the grades. Other than a small increase for the 1930-S in MS64FB there is no movement to report.

WALKING LIBERTY HALVES: Walkers show some slight volatility this week in the form of increases; in particular, several short set dates in MS64 are up just a bit. Also, the 1921-D semi-key has jumped in MS63. The remainder of this market is relatively quiet.

DOLLARS: While a few increases in Bid can be found in MS60 and MS63 weakness is still obvious for MS64 and MS65 common date Morgans. Peace Dollars are stable aside from some slight declines in VG. BU SBA's are quiet, 1999 P and D bags are trading between $2,050 and $2,200.

PROOF SETS AND MINT SETS: It's business as usual for Proof and Mint Sets which means one thing – **strength**. Demand is huge for these sets, and the continuously rising Bids have shown no significant signs of slowing.

COMMEMORATIVES: A few increases can be found in the Silver Commemorative market this week. For the most part, though, this area of numismatics is stable at current levels. Gold Commems have very healthy support, especially in MS64-MS66, where virtually every issue is being chased. The 1915-S Pan Pacific Expo $2 ½ is in demand, with a strong jump in MS65. Modern Silver and Gold Commems have very little movement to report at this time, though a few Silver Halves and Dollars show slight increases.

TYPE: Uncirculated Type coins are on the rise! One look at our chart will demonstrate the widespread increases throughout this market. Proof Type is not as active, though support is very strong throughout. The Three Cent Nickel is especially popular.

GOLD: Last week, MS65 U.S. Gold Type was the target of declines; currently, the victimized grade is MS63, where Bids have dropped for most coins. For the third consecutive week, in spite of the surrounding softness in U.S. Gold Type, High Relief Saint-Gaudens specimens are climbing; MS63 thru MS65 examples are up

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions to arrive at sight-seen "raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect the price at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already includes [illegible] sight-seen "raw" may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding activities of the high bidder. Bid levels for privately offered lots may be higher or lower than current Bid Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask prices per having coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc., may exhibit some toning but it should not be so dark as to hide any problems, will have minor bagmarks and may show weakness of strike. Above average eye-appeal.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will [illegible] (here at [illegible] the corresponding [illegible] Mirror [illegible] will [illegible] of [illegible] surface [illegible] on both sides.

PROOF, MINT SETS CONTINUE STRONG DEMAND
PREMIUM QUALITY COINS PREFERRED

The Market in Depth

Demand for premium quality coins is *very* strong. Bids are rising above current levels for especially nice coins that have an extra bit of appeal to them. Knowledgeable collectors and collector/investors are willing to wait for the right coin to become available. Dealers know these special coins are worth the extra money it takes to buy them. Key and semi-key dates are increasing, as are Bids for Silver Commems grading MS64 and better.

Activity is everywhere in the Proof Set and Mint Set markets. Dealers are actively competing against one another, looking to buy many of these sets in quantity at the strong prices listed. Demand is for original government issued sets. Bidders are willing to take average quality sets and will pay more for better quality and/or sealed Proof Sets. Early Proof Sets have been realizing increasing demand. The 1936 Proof Set is increasing as is the 1938 Proof Set. Each of these sets comes with the desirable Proof Walking Liberty Half Dollar. The 1936 Proof Set also contains a Buffalo Nickel while the 1938 Proof Set offers the first year of issue of the Jefferson Nickel. Silver Proof Sets and Premier Silver Proof Sets are attracting much attention. The 1999-S Silver Proof Set has had its share of activity in only a short period of time since its release.

Modern issues are **on fire**. Demand for modern sets, especially those that are choice, can command exceptionally strong Bids. One dealer is willing to pay $540 for a complete set of Kennedy Half Dollars from 1964 to date. The set should include "S" Mint Proofs & Silvers, but not the 1998 Matte. The 1998 Matte Kennedy Half Dollar is found in the Kennedy Two Coin Set and is now Bid at $225.

The Dr. Jon Kardatzke Collection Part II will take place June 4-6 in Los Angeles. The sale will be conducted by Ira and Larry Goldberg C&C. A Proof 1875 $3 Indian and a Mint State 1815 Capped Head Half Eagle are among the many highlights. Then it's off to Long Beach, CA for most dealers who will be attending the Long Beach Expo, June 7-11.

This Week's Market

CENTS THRU HALVES: Strength in this area of numismatics remains. Increases exist throughout the market for a variety of denominations. A pocket of Nickel Bid jumps for most dates from 1938-1940-S can be found on our chart this week. Several increases are found for Kennedy Halves; Proof 1998 s are now Bid at $625, with dealers needing quantity.

MERCURY DIMES: While support seems to be growing throughout the market, volatility is virtually nonexistent for Winged Liberty Dimes. This week, movement is limited to a couple of slight decreases for 1943-D and 1944-D issues in MS65FB.

WALKING LIBERTY HALVES: A continued condition of quiet for Walkers. A single negative adjustment is found for the 1940-S in MS64. Another notable situation is the heavy support for short set dates in lower grades.

DOLLARS: The market is certainly mixed, but decreases dominate in MS64 and MS65 for semi-key dates. The 1928 Peace Dollar is in demand, as increases grace this coin from VG-XF. On the negative side, several decreases exist for numerous issues in MS65. The remainder of the Peace Dollar Market is stable.

PROOF SETS AND MINT SETS: Healthy increases week after week continue. The strength for Proof and Mint Sets is **remarkable**. Demand simply has not yet been satisfied in this area of numismatics. 1999 9-Coin Proof Sets have finally sold out from the United States Mint. This summer, 10-Coin Proof Sets, which will include the Sacagawea Dollar, will be available.

COMMEMORATIVES: Silver Commems are showing signs of vigor for MS64 and above examples; numerous increases color this portion of our chart for a large variety of issues. Gold Commemoratives have maintained their robust support for nearly all higher grade coins. In fact, support seems to be slowly spilling into the lower grades as well.

TYPE: The Mint State Type market is apparently accepting the newly raised levels as plentiful support exists for issues which increased last week. In fact, several more Bid jumps can be found this week.

GOLD: While some weakness still exists, the U.S. Gold Type market seems to be stabilizing somewhat. Increases for the High Relief Saint-Gaudens have also leveled off for the moment.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, the maximum commissionary markup over which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which usually includes coins graded conservatively. Bids on sight unseen coins may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the holding of an inventory at the high bid. You will be obligated to buy coins which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. You should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates listed. In the business strike sets of circulation strike rolls are usually one coin toned, usually with color ranging from the Jefferson series, some of the rolls of the late 50's tend to be dark – these bring lower prices, and do not reflect a premium being applied to the Mercury dimes, also full bands' rolls are worth more than listed prices, particularly the pre-1941 issues. We have not listed prices for proof rolls, but typically these sell for about 10 times the price of the BU rolls. Quarters in the 1-point grade are worth more than listed prices. Also, singles may be found in our MORGAN DOLLAR, SEATED & BARBER coin section.

"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

BOWERS BASS AUCTION APPROACHES $6.5 MILLION

GOLD COMMEMORATIVES REMAIN HOT

The Market in Depth

The Harry W. Bass, Jr. Collection Part III has taken hold of the attention of dealers. Many traveled to New York to participate in the May 25-26 sale by Bowers and Merena. Gold specialists and serious collectors of Gold were in attendance. There was active, strong collector/investor Bidding taking place during the auction, suggesting that the vitality of this market may be stronger than previously thought. Rare date Gold has always been an important part of numismatics, and its strength is an important indicator of the overall health of the rare coin market. The Bass sale, composed entirely of Gold, realized more than $6.434 million.

This has been a light volume week in the rare coin market primarily due to the heavy auction schedule. Many dealers have been away from home viewing auction lots and attending the auctions. The Memorial Day holiday has also contributed to many dealers taking an extended weekend. Consequently, light trading and Bidding has been taking place on the electronic dealer networks. However, we do note that there is a *large* number of supporting Bids for many coins at current levels. Even Bids for Gold Type have maintained levels after falling during the past several weeks.

Gold Commemoratives have not participated in the status quo of other series and denominations. Strong Bids are still occurring for this **hot** series. The Louisiana Purchase — Jefferson and McKinley; Lewis & Clark Expo; Panama-Pacific Expo; McKinley Memorial; and Grant Memorial $1 Gold Commems are very popular. Demand for Gold Commems begins at MS64 and continues strong right thru MS66. Generally, dealers believe that these Gold Commems are still attractively priced, even at the new levels. An important reason for this value stems from price itself. Collectors and Collector/investors can buy a Gold Commem rarity in a quality condition between $1,000-$5,000. This is a price range where many buyers feel comfortable. Yes, there are some that trade above $5,000, but generally prices are very affordable.

This Week's Market

MERCURY DIMES: Impressive, widespread support exists in the Mercury Dime market this week. As volatility has decreased demand at current levels has increased

WALKING LIBERTY HALVES: Action has picked up somewhat for Walking Liberty Halves. Similar to Mercs, support is very healthy for a variety of dates and grades, and volatility is rather low. A few slight positive movements exist in MS64, but again, the main story here is the strong demand at current Bid throughout the series

DOLLARS: Most likely as a result of the busy holiday weekend, this usually active segment of numismatics is very quiet at the moment. There is some support to speak of for both Morgan and Peace Dollars, though. Numerous issues in MS60 thru MS65 are in demand at current prices.

PROOF SETS AND MINT SETS: Proof and Mint Sets show a slight slowdown this week, which is indicative of much of the rare coin market at present. Even in this period of downtime, support is strong, and numerous Bid jumps are found on our Proof and Mint Set charts.

COMMEMORATIVES: Silver Commems have giant support, particularly in grades MS63-MS66, and no significant positive or negative movement exists. Gold Commems continue their huge popularity, as demand has increased again for nearly all MS64-MS66 issues. Modern Commems are stable, though there is an increase for the 1994-W Prisoner of War Silver Dollar issue in BU and Proof

TYPE: The key word this week is definitely support. The majority of the Mint State and Proof Type markets have incredible acceptance at current Bid. The Barber series is in the spotlight with numerous, slight Bid increases. As with most of the coin market this week, the remaining Type issues are healthy.

GOLD: Gold Type is generally stable. Regarding U.S. bullion, the 1999-W Quarter Ounce and the 1999-W Tenth Ounce Uncirculated American Eagles are Bid at $350 and $150 respectively. The Uncirculated Tenth Ounce and Quarter Ounce mintmark varieties were just recently discovered, and the total number of such Eagles, incorrectly bearing the "W" mintmark, is still unknown.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen that week, then sight-adjusted, edited, and averaged at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already includes a factor of certification. Bids for sight unseen coins may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding activity of the high bidder, but could change Asks when Bids are higher or Asks which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you cannot expect to get a particular coin, nor even purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. may exhibit some toning but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to [illegible]

Deep Mirror Prooflike: [illegible] characteristics as the corresponding Mint State Morgan, but with the additional features of deep mirror surfaces on both sides.

Please Note: This page alternates weekly with Page 18 which contains BU and Proof Sets.

JUNE LONG BEACH SHOW MARKS MARKET MIDYEAR

FLYING EAGLE CENT BRINGS $83,375

The Market in Depth

Dealers are now in California attending the Long Beach Coins & Collectibles Expo, through June 11. This show usually comes with high expectations because it draws *strong* public attendance from the solid Southern California collector base. Also, major rare coin auctions are conducted before and during this show. Show promoters are anticipating especially large crowds for two main reasons. The first is that the S.S. *Central America* will be on display, showing off some of its Gold booty for only the second time in Long Beach. The "Ship of Gold" was a huge hit with the public when it debuted, and is sure to entertain thousands again this month. Secondly, the explosion of popularity for the Commemorative State Quarter program will no doubt bring large numbers of collectors out to buy coins and supplies.

The June auction lineup began with a bang June 5 as early results from Superior Galleries for Large Cents, Flying Eagle, Indian and Lincoln Cents brought 4 and 5-figure prices realized. Topping the list is an MS66 1856 Flying Eagle Cent at $83,375. Almost as remarkable is the $77,625 paid for an MS66 Red 1872 Indian Cent.

The rare coin market is selectively strong, with specific areas realizing strong Bids. Plus signs are appearing for coins demanded by collectors. Currently, we see Barber coins receiving strong activity with slight increases for Dimes, Quarters and Half Dollars. Barber key dates always seem to be in demand. Interest is also translating into plus signs among Washington Quarters, Flying Eagle Cents in MS63 and MS64, common date Indian Cents in MS64 and MS65, and key date Lincoln Cents. Other areas of strength include variety 2 and 3 Silver 3-Cents in MS64, 3-Cent Nickel Pieces in MS63 and better, and Buffalo Nickels. These middle grade Mint State needs are the bread-and-butter coins that many collectors obtain for sets. Such coins can be bought and sold rather quickly.

Common date, Circulated Carson City Morgan Dollars are increasing. We have seen much dealer interest in Mint State and GSA "CC" Dollars this past year. Now, we are seeing strong Bids and plus signs for Very Good "CC" Morgans.

This Week's Market

CENTS THRU HALVES: Numerous widespread Bid jumps for Cents are found on our BU and Proof Rolls chart this week. Also, most Proof Silver Quarter Rolls are rising. In particular, the 1997-S Proof Roll has more than doubled, achieving a current Bid of $450. Several healthy increases exist for Halves has well, adding further to the overall strength of the Roll market. On a slightly negative note, State Quarter Rolls are off slightly in BU.

MERCURY DIMES: Winged Liberty Dimes haven't changed much since our last report. Again, support is very strong, and volatility has died down for the moment.

WALKING LIBERTY HALVES: Walkers are stable at current levels, and Bidders are willing to pay the going rate for multiple dates. Short Set issues are clearly sought after as support in this area is particularly strong.

DOLLARS: In an otherwise quiet market, low grade generic Morgans show some slight increases. Peace Dollars are quiet as well, though some small jumps can be seen for several issues in MS60. BU Eisenhower Dollars are mostly stable, with some slight weakness for various dates. Susan B. Anthony Dollars are strong for 1981-S Proof Type 2 issues.

PROOF SETS AND MINT SETS: The demand for Proof and Mint Sets is still outstanding. This marathon run of increases week after week simply shows no signs of stopping. The Proof 1997-S Silver and Premium Silver Sets are very strong, with nearly a 17% increase to $120 for both. The U.S. Mint began selling the 2000 10-Coin Proof Sets on June 7th.

COMMEMORATIVES: Support has changed to increases for a multitude of issues from MS64-MS65. Also, support is very strong for a large variety of MS66 examples. New higher levels for Gold Commems have total support this week. Recently, Bids have been rising for most issues in Grades MS63-MS66.

TYPE: Tremendous support for Uncirculated and Proof Type remains this week. Several issues have support across-the-board on our charts. Flying Eagle Cents, Indian Cents and Three Cent Nickels are especially popular.

GOLD: U.S. Gold Type is showing some weakness in MS63-MS64. The remainder of this market is relatively stable.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell sight seen, "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen at writing, the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already include consideration of certification costs. Bids for a sight seen "raw" may be higher or lower than for a sight unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be automatically influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. You should expect to get a different price. Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Here's what some of **Spectrum's** satisfied clients have to say:

This is just a note to say "thank you" for the prompt attention, courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale ($700) or the one in 1995 for over $100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

Superb Indian Cents, an impressive 1856 Flying Eagle and exceptional Lincoln Cents were just a few of the coveted lots offered. Proof and Uncirculated Type Coins made a spectacular showing with coins realizing two and three times the estimate.

The morning session featured Copper Coins and a special offering from The Hudson River Valley Collection. The session began and ended with strong bidding bringing robust prices.

SOUTHERN CALIFORNIA AUCTIONS SELL OVER $12 MILLION
COLLECTOR COINS ACTIVE AT LONG BEACH EXPO

The Market in Depth

Collector coins were in *strong* demand at the June 7-11 Long Beach Expo in Southern California. Dealers said that activity was taking place, but they had hoped to find more to buy. Consequently, many want lists continue to be unfulfilled. Strength was evident for Flying Eagle, Indian Head and Lincoln Cents. Many collectors are working on complete sets of Cents, and quality is important. It is interesting to see many battles ensue at public auction as buyers try to obtain the better quality key and semi-key dates. During the heat of competition, prices may jump far above pre-sale estimates. This can occur when a rarity of impressive quality becomes available.

While common date, generic Gold was lackluster, rare date Gold was trading at current levels during the Long Beach Expo. However, material with less than average eye appeal was discounted. While buyers were being cautious, they were willing to pay the **big bucks** for coins that offered exciting strike and luster for the grade. Buyers are in control and willing to pay strong money for the right coin.

Heritage Galleries conducted two auctions in conjunction with the Long Beach Expo with prices realized totaling just over $4 million; the "Certified Only" Bullet Auction realized $424,618 of this amount. Part II of the Dr. Jon Kardatzke collection was held prior to the Long Beach Expo, June 4-6 in Los Angeles. The auction realized approximately $5 million and was conducted by Ira and Larry Goldberg Coins and Collectibles. The highlights included a $5 1798 Capped Bust, Small Eagle grading EF-40 that sold for $264,500. Superior Galleries brought in over $3.5 million in the Pre-Long Beach Sale, held June 5-7 in Beverly Hills.

Treasures from the S.S. *Central America* will be sold June 20-21 in New York by Sotheby's. The sale has been rescheduled from December 8-9, 1999. It will include Gold bars, ingots, coins and dust. Mostly, Gold coins struck in 1856 and 1857 at the San Francisco Mint are featured.

This Week's Market

MERCURY DIMES: Support remains very strong in the Mercury Dime market with Bidders willing to pay current Bid for a large number of issues in various grades.

WALKING LIBERTY HALVES: Walkers have a good amount of acceptance at today's levels, particularly in MS65. As usual the short set dates have solid support but similar to Mercs, no increases are evident at the moment.

DOLLARS: Numerous generic Morgan Dollars are up this week in VG and Fine with the remainder of this market relatively stable. Peace Dollars show very little action, no adjustments exist at all at this time. Modern Dollars are quite stable presently while some positive adjustments exist for 1981, 1981-D and 1981-S Susan B. Anthony BU Rolls. Proof Silver Eagles have a star this week — the 1995 10th Anniversary Silver Dollar, minted at West Point, is Bid at $1,750, which is well over double the Bid from January, 2000.

PROOF SETS AND MINT SETS: Coin show or not, Bidders are not letting up on Proof and Mint Sets. Many dates are in strong demand, and Bids are higher and higher nearly every week.

COMMEMORATIVES: Silver Commemoratives have stabilized since last week's volatility, though some activity is certainly taking place. For example, the 1893 **Isabella** Quarter is up in MS60 and MS63-MS64. Also, support at current levels is impressive for virtually all issues in Mint State grades. Believe it or not, Gold Commems are increasing again. This week, MS65 graded Gold Commems are in the spotlight, with nearly all issues rising. Also worth mentioning is the fact that the increases from past weeks in other Mint State grades have very strong support, though no Bid jumps. Modern Commemorative "**Matte**" sets are on **fire**. The Jefferson set, with the 1994 **Matte** Jefferson Nickel, is at $60. The Botanic Garden set, with the 1997 **Matte** Jefferson Nickel, is at $150, and the RFK/JFK set, with the **Matte** Kennedy Half Dollar is up to $245.

TYPE: Very hearty support still covers our Proof and Mint State charts. Even with the current market slowdown (most likely as a result of the strong Long Beach Expo, which kept dealers very busy), the type markets are thriving.

GOLD: While predominantly stable, U.S. Gold has some weakness, especially for $2½ Liberty examples in MS63-MS65.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc., may exhibit some toning, but it should not be so dark as to hide any problems, will have some luster, but may show weakness of strike. Above average [illegible].

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very near to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Marican, but with the additional luster of deep mirror surfaces in both [illegible].

Please Note: This page alternates weekly with Page 14 which contains BU and Proof Rolls.

THE INSIDER'S ADVANTAGE

(A publication of TAGZ, the nation's foremost publicly traded rare coin firm)

Since 1970, high quality rare U.S. gold coins HAVE OUTPERFORMED the DOW by a margin of nearly eight to one! And although the coin market is HOT... not all "rare" coins are ALIKE! At Tangible Asset Galleries, Inc. (stock symbol TAGZ) we possess the ability to consistently identify coins with the greatest potential for capital appreciation, as well as those which bear the highest degree of downside risk... all with uncanny ACCURACY *and* TIMELINESS. DEALERS SELECTIVELY BUYING
GOLD COMMEMS GLISTEN

The Market in Depth

Summer just began, and *select* segments of the rare coin market are as hot as the sun. Gold Commemoratives continue to capture the attention of dealers. Increasing Bids are seen for nearly every issue in MS64 thru MS66. Demand is **solid** for all the $1 and $2.50 Commem Gold denominations. Bidding has increased because these coins are difficult to find, and ready customers are present. The Commem strength was further defined by the strong prices realized during recent June auctions. Unfortunately, the same is not true for Type Gold, though Carson City Gold is hot. Over the years, "CC" Gold has demonstrated strong collector demand and solid prices realized at public auctions. This June, many auctions took place with some interesting "CC" Gold being offered.

Today, rare date "CC" $5 and $10 Liberty design are heavily sought-after by collector/investors. Dealers sometimes find themselves among the collector ranks, and those who specialize in this part of the market tell us these dates are difficult to find in better grades. Also, it is tough to locate no-problem, original examples for the grade. Therefore, when they do appear at public auction, it is easy to predict that Bidding battles will breakout over these rarities. Among $5 "CC" issues, the 1870 and 1879 are up with more examples needed to fill want lists. However, some better date $5 Gold has been discounted. The $10 "CC" increases are also quite noticeable. Again, the 1870s are in demand with 1871-CC, 1875-CC and 1878-CC increasing. Extremely Fine and About Uncirculated examples are quickly bought, as examples in higher grades are rarely found.

Common date Morgan Dollars increased slightly in MS64. Although the Bid only represents a $1 increase from the previous week, the interesting story is that common date Morgans may be finding a support level. We see this in MS65 thru MS67 as well. Otherwise, weakness is apparent for some semi-key dates in MS63 thru MS67.

This Week's Market

BU ROLLS: Dealers are actively buying and selling BU Rolls. Collector demand is strong in this area of the market. This week, plus signs are evident for select Jefferson Nickel Rolls. The demand is found across the long series with a few plus signs occurring in the 1940s, 1950s and 1990s. Weakness is taking place among Fifty State Quarter Rolls with the popular early states taking a hit this week.

MERCURY DIMES: Mercs continue their relative stability this week. Bid has decreased for a few issues in MS64FB, but overall, the market is unchanged with widespread support.

WALKING LIBERTY HALVES: Several small increases are present on our current chart for Walking Liberty Halves, but the main story here is stability and support. Short set dates and high grade issues are particularly popular.

DOLLARS: There is some volatility to report in Mint State grades for Morgans. This action is mixed, though MS65 issues are dominated by decreases. A much less active market exists for Peace Dollars, though some movement is occurring in higher grades in the form of lower Bids. BU Eisenhower Dollars are very stable, but SBAs are moving up with a variety of Bid jumps this week.

PROOF SETS AND MINT SETS: It may come as no surprise that Proof and Mint Sets are going strong, with numerous increases and plenty of support. Proof Sets are especially healthy, while Mint Sets seem to have slowed just a bit.

COMMEMORATIVES: Giant support for Silver Commems exists in MS63 MS66. While a few increases can be found, this market is very stable at the moment. Gold Commemoratives are a much different story; Virtually *every* coin from MS64 MS66 is climbing higher. We have been monitoring this pattern for weeks now.

TYPE: Current Bid support is outstanding for both Proof and Mint State Type coins. The vast majority of these coins are definitely in demand at current levels, and no positive or negative adjustments exist in these very stable markets.

GOLD: Weakness is evident for Gold Type, especially $1 thru $3 Gold in MS63-MS64. This area of weakness has begun to spread somewhat into slightly better dates as well.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring actual transactions and offers to buy and sell coins sight-seen or raw, uncertified, but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bid and lowest legitimate Ask quotations available at writing. Any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes a discount. Bid for a sight-unseen coin may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change bid down to the bidding activity in the high bidder may still be strongly influenced by Buy prices are higher or bids which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions, you should expect to pay a premium over when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the [illegible] section, spotted or otherwise unattractive rolls are usually less than listed prices and, conversely, choice rolls, especially those of the Jefferson series, some of the rolls in the late 40's tend to be darker than those in lower grades. Rolls of some dates and mints are usually available in "Red Book" grade only. Full bands' rolls are worth more than listed prices, particularly the pre-1941 issues. Wrapped rolls, dated as put together, bring lower prices, except for certain dates, particularly the 8-mint issues and some other mint issues. Mint wrapper rolls are found in two [illegible] Jefferson wrappers are in the [illegible]

DEMAND POWERFUL FOR MODERN SETS
SILVER COMMEMS COME ALIVE

The Market in Depth

Proof Sets! Silver Proof Sets! Prestige Proof Sets! Mint Sets! All of these sets are realizing *very* strong demand today. Dealers are clamoring for this material in a big way. This week's increases come on the heels of past weeks' increases. Dealers are willing to buy a single set or quantities. In some cases, they will even pay more for quantities. Late date 20th century coins are extremely active and sought-after. Washington Quarter and Kennedy Half Dollar sets are in demand. Bids are increasing for average quality sets and increasing strongly for premium quality sets. An expanding collector base given life from the Fifty States Commemorative Quarter program, the Sacagawea Dollar and the release of a new design for Paper Money must receive much of the credit. Advertising targeting the young collector is paying dividends. This segment of the market is alive and robust.

Interest is seen as dealers actively buy and sell Morgan and Peace Dollars this week. This has been one of the most popular series for dealers. There is a strong collector base for Dollars, and dealers maintain want lists of key and semi-key dates. However, knowledgeable collectors have become more fussy, so the number of transactions taking place has decreased. Coins that would have traded hands several years ago are not because today's standards are tougher. Buyers are looking for nice quality coins with flashy eye appeal. Toned coins have to be attractive and possess original surfaces.

Carson City Mint Morgans continue to realized especially strong demand. We see dealers Bidding for quantities of "CC" Mint Morgans from Very Good thru Choice Uncirculated for a wide range of dates. Increases are found on this week's chart for several "CC" issues. The only stipulation is that all "CC" coins, no matter what the grade, be problem-free.

Silver Commemoratives are also active. Increased Bids are seen among MS64 and better Commems. Interest in Silver Commems is not limited to the Half Dollar denomination. The Isabella Quarter and the Lafayette Dollar are also receiving attention and gaining value. Until recently, this area of the market has remained relatively quiet. A number of different promotions with this series is possible by targeting today's Commemorative collectors.

This Week's Market

MERCURY DIMES: We have yet to see a significant change in the Mercury Dime market for several weeks now. The stability of this market is characterized by very strong support at current levels.

WALKING LIBERTY HALVES: The Walking Liberty Half segment of numismatics has maintained healthy support throughout the market for some time. This week, several short-set examples are climbing in MS64.

DOLLARS: The decreases for Cartwheels have moved to MS60 issues. As with last week, the market for Morgans is mixed, but lower levels outnumber increases. Peace Dollars are showing some weakness in lower grades for a significant number of issues. Eisenhower Dollars are stable, and Susan B. Anthony Dollars have a few small Bid jumps. The 1995 10th Anniversary West Point Proof Silver Dollar is still climbing, with a current Bid of $2,000.

PROOF SETS AND MINT SETS: Proof Sets are showing **great** strength with a large number of increases and very healthy support all over our chart. Mint Sets have particular strength for 1947 thru 1954 issues. Support is also very strong throughout the entire Mint Set market.

COMMEMORATIVES: Last week's support has turned into numerous increases for a wide variety of MS64 issues in the Silver Commemorative market. Museum quality Gold Commems have increased once again, with plus signs appearing for a number of issues in grades MS64-MS66. This pattern has been occurring for several weeks. Five Dollar Modern Gold Commems are generally down in BU and Proof, most likely as a result of a lower Gold Spot. Two Coin Sets with Matte Proof coins are up again, including the 1993 Jefferson, 1997 P Botanic Garden, and 1998 S Robert F. Kennedy Sets.

TYPE: Mint State and Proof Type coins are holding on to their solid, widespread support. It seems that virtually every coin in these markets is in demand at current Bid. At present, only a single positive adjustment has been made.

GOLD: U.S. Gold is mostly stable, though some weakness is still evident. Saint Gaudens are down in lower grades, but a small increase exists in MS64. Several Dealers are after the 1999 BU "W" Gold Eagles. The 1/10 oz. and the 1/4 oz. are Bid at $160 and $390 respectively.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example... shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have many bagmarks and may show weakness of strike. Above average [illegible].

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional features of deep mirror surfaces on both sides.

Please Note: This page alternates weekly with Page 58 which contains [illegible]

"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

Tells why more people are turning to PCI

☐ **PCI** accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

SECOND HALF LOOKING FAMILIAR
EYE APPEAL IMPORTANT TO COMPLETING TRANSACTIONS

The Market in Depth

The second half of the year is beginning where the first half ended, with **Modern Sets** captivating the attention of dealers and collectors. A quick look at our Proof Set and Mint Set charts will help you understand. Plus signs are appearing with more regularity and increasing in number. Modern coins and sets are realizing exeeptional demand. Dealers are actively pursuing this segment of the market at the expense of other areas. They want to give attention to the area of present demand. And who can blame them? Old and new colleetors alike are buying Modern Sets. Interest in eoins is growing by the day as State Quarters and Sacagawea Dollars make their presence known in circulation. Many people who have never collected or even thought about collecting rare coins are putting these new coins aside. In turn, some of them are branching out to other areas in numismatics. For those following the Sacagawea/Washington Quarter "Mule" error — three are now known to exist.

Early Proof Sets and Mint Sets have been rejuvenated as dealers are willing to pay strong money to acquire them, especially those sets which are better in quality or originally and attraetively toned. Demand for early Proof Sets and Mint Sets is aeeelerating. Beyond all the obvious increases are the strong supporting Bids for the balance of the Proof and Mint Sets.

The market for 18th, 19th and early 20th century rare coins is also doing well. Dealers are quick to point out that the name of the game is material. Those offering the right material have no problem generating sales. Unfortunately, it is a double-edged sword. If a dealer is in need of specific dates in quality eondition, the road can get rather bumpy. Dealers know that they will have to pay strong money to buy the coins they need from other dealers. The same scenario is true if they choose to buy via the auction route. Eye appeal rates high, and quality, rare material with flash is realizing strong demand from a discriminating and knowledgeable collector eye. This market is *extremely* selective. Those eoins that do not measure up to standards are quickly discounted.

This Week's Market

CENTS THRU HALVES: Some weakness is evident for BU Rolls. Dimes, Quarters and Halves are suffering the most, though the decreases are slight. State Quarters are being diseounted as well. On the positive side, several Proof Rolls are currently up from previous levels.

MERCURY DIMES: A few seattered plus signs exist on our Winged Liberty Dimes chart this week. Otherwise, this market remains stable with numerous bidders willing to pay eurrent levels.

WALKING LIBERTY HALVES: Walkers are maintaining stability throughout the market. Support is strong, as usual, in high grades as well as for short set dates.

DOLLARS: The market for Morgans seems to be stabilizing somewhat. As has been the ease lately, the volatility is mixed, but this week is a bit less active. Some new signs of moderate strength exist in MS60, while slight weakness is found in higher grades. Peaee Dollars have quieted significantly; Lowered Bids from last week have acceptanee in VG.

PROOF SETS AND MINT SETS: Proof and Mint Sets make up an **incredibly** strong area of numismaties at the moment. In fact, this exeeptional strength has been ongoing for months. Inereases are everywhere, and where there is no increase, there is support. Mint Sets show exceptional demand this week, with every date from 1947-1958 rising.

COMMEMORATIVES: Silver Commems eontinue to rise. This week, many issues from MS64-MS66 are elimbing. Also, support exists for the previous week's increases. Similarly, reeent inereases have total support in the Gold Commemorative market. Lately, this area of numismaties has been *extremely* strong as popularity and demand have grown seemingly every week.

TYPE: Uneireulated Type has phenomenal support throughout. We have been monitoring this eondition for several weeks. Proof Type remains robust as well. Two Cent Pieees, Quarters and Halves are especially strong.

GOLD: U.S. Gold has some weakness for a multitude of issues in MS63-MS64. The remainder of the market is relatively stable at eurrent levels.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all [illegible] transactions and offers to buy and sell coins sight seen or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, thus do not necessarily reflect prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which already includes [illegible] sight seen coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the holding adjustments of the local dealers, but will be strongly influenced by those are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above the full purchasing coins in a retail transaction you may also commission a Dealer for your purchases.

TYPE RECEIVING MUCH INTEREST
PROOF AND MINT SETS UP AGAIN

The Market in Depth

Type is taking the **spotlight** this week. Many customers are interested in collecting this way. When you consider the cost and time it takes to complete sets and series, it is easy to see why many individuals turn to Type collecting. Also, there are many collector/investors who prefer adding rare coins to their portfolios this way. Since early July, we have seen increased activity in the Type market. Bids are increasing for select Circulated Type and Proof Type. Circulated Type is higher thanks to increasing demand for select Large Cents, Liberty Nickels, Half Dimes, Bust Dimes and Liberty Seated Dimes. However, some decreases are seen among the Uncirculated Type market from MS63 and better. Most of the discounting is for Half Dimes, Dimes and Quarters in MS64 and MS65, though these decreases are minimal.

Strong Bids are taking place for Liberty Cap Large Cents. These coins are quite popular with serious collectors. Type collectors are satisfied with obtaining an example of this Type, struck from 1793-1796, bearing a common, affordable date. Buyers are looking for no-problem About Uncirculated 50 or 55 coins. They also want AU-58 or Mint State 60 examples. Dealers do not mind buying several examples for their inventories at these levels. Demand is very strong for quality, early copper.

Half Dimes are usually the target of many dealers because this tiny Silver denomination is sought-after by Type collector/investors. The first two years of the Half Dime usually realize strong demand. Increases are seen for the Flowing Hair Type struck from 1794-1795. Since the 1795 is more common, as its mintage is 10 times greater, this is the Type coin of choice. Strong demand for the 1795 Flowing Hair is seen in grades from VF20 thru AU55. However, even though the Bid is now over $1,000 for a VF20, it is still a very affordable rare coin. Interest is also evident for Good thru VF Liberty Seated Dimes. Dealers are looking to buy quantities of these if available.

This Week's Market

MERCURY DIMES: Support is growing for Mercury Dimes. While no increases are found this week, numerous Bidders are clearly willing to pay current levels for these coins throughout the market.

WALKING LIBERTY HALVES: High grade Walking Liberty Halves have some support, as do short set date examples. Other than one positive adjustment, this area of rare coins is very stable.

DOLLARS: In a predominantly stable market, there is some weakness in grades MS63 and better for Morgan Dollars. Recently, Morgans have been mixed, and this condition continues, but the decreases definitely outnumber the increases. Peace Dollars are quiet, with no significant activity to report at this time, though support exists for generics in VG. Susan B. Anthony Dollars are mostly stable, with a few increases and support. $41,395 was the winning Bid for the first Sacagawea Dollar/Washington Quarter Mule to sell at auction.

PROOF SETS AND MINT SETS: Proof Sets are very strong, as usual. Increases are nearly everywhere, and support is huge. The Mint Set market has several dates from 1947-1958 up *again*. Those that haven't increased again have support at the new higher Bids. Of course the remainder of the market has many more plus signs and exceptional support as well. Proof and Mint Sets simply have not run their full course of incredible demand.

COMMEMORATIVES: Silver Commems are rising again. For several weeks, these coins have been in **strong demand** in grades MS64-MS66. As with last week. Gold Commems have total support for recent increases. Modern Silver Commems have healthy support in Proof for a variety of issues. Three Coin Sets are showing weakness for several examples. The remainder of the market is very quiet.

TYPE: Strong support, but several slight decreases exist on our chart for Mint State Type. Proof Type is somewhat stronger. Generally, despite the slight decline at present, both of these areas of numismatics have been gaining strength recently.

GOLD: U.S. Gold is very stable at the moment, after some recent volatility. $20 Saint Gaudens in MS64 are up slightly this week. A few better date one ounce Proof American Gold Eagles are up from our last report.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen, or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for sight-seen coins may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the building adjustments of the high bidder, but will be strongly influenced by those prices are higher or bids which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay considerably more for purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional bonus of deep mirror surfaces on both sides.

Please Note: This page alternates weekly with Page 9A which contains BU and Proof Sets.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum:*

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

MODERN SETS ARE MOVING
MS65 MORGAN DOLLARS SUFFER

The Market in Depth

Modern coinage continues to impress as dealers look to capitalize on the current strong demand. Dealers are eager be part of this "new collector" buying frenzy for two reasons. First, the profit margin for these coins are more than satisfactory. Demand is strong enough for a quick turnover and a quick profit. Second, and probably more important than the first reason is the vision of future profits. These new customers, if they are satisfied with their purchases will be back for more. Also, the possibility of their interest expanding into other areas of the market down the road looms large.

Sets of **modern coinage** and high grade certified singles is very much the **rage**. Dealers are doing their best to put together complete Circulated and Uncirculated sets of mid to late 20th century coins from Lincoln Cents thru Anthony Dollars. Dealers assembling sets are actively pursuing BU an Proof rolls. The late dates of most series are realizing the greatest jump in Bids. We are seeing very strong activity taking place in the Jefferson Nickels, Roosevelt Dimes and Washington Quarters series. A solid customer base is expanding for this material. Dealers who are keeping pace with demand and the times are benefiting the most.

Bids continue to increase for Gold Commemoratives. Interest is seen for most issues with the heaviest demand taking place for grades MS65 and MS66. Dealers are finding availability somewhat difficult and problematic. Gold Commems are attractive to collector/investors because it is a relatively short series and they usually trade between $1,000-$5,000. This is an affordable price range for many buyers.

Weakness is taking place among common date MS65 Morgan Dollars. We have seen weakness in this segment of the market throughout the year and mid-July just confirms the decline. MS65 Dollars are now Bid at $70 with some dealers willing to sell small quantities at the $74 level. Generic MS65 Morgans have not been this low since February 1981. However, MS64 common dates appear solid at the $34 level with a great deal of supporting Bids.

This Week's Market

CENTS THRU HALVES: Early Washington Quarters see another round of increased Bids from several dealers. Proof Kennedy Halves also continue to be sought after. The current Roll market remains alive and well

MERCURY DIMES: The most attention is focused towards Mercs with the Full Split Band grade designation. The majority of dates are solid at current levels with the 1930 S up in MS63, MS64 and MS64FB.

WALKING LIBERTY HALVES: Several early Walking Liberty Half Dollars are higher this week. This is in contrast to what we have witnessed so far this year, with the most attention being focused on the later dates.

DOLLARS: MS65 Morgans have not seen these lows for nearly 20 years. Circulated Morgan and Peace dollars are steady at current levels. BU and Proof Eisenhower Dollars continue to see action - complete mint packaging is a must

PROOF SETS AND MINT SETS: Even though a few sets have been discounted, the Proof Set market remains very strong, as usual. Mint Sets are higher for every year from 1947 through 1958. Their is huge wide-spread support for these Sets, in their original holders of course.

COMMEMORATIVES: Gold Commems are singing the same song with more and more plus signs. Virtually every issue is up in grades MS64-MS66. High grade Silver Commemoratives are jumping on the Gold Commem bandwagon with a few issues up again after last weeks increases.

TYPE: Draped Bust Half Dimes have jumped in Bid for those dating 1800 through 1805. Customer want lists is the reason for the recent dealer Bid jumps. Draped Bust and Flowing Hair Dollars are also seeing their share of increases in grades Fine through Extremely Fine. The Proof Type market is quiet this issue with no pluses or minuses to report.

GOLD: U.S. Gold Type continues to be soft. How much longer can this last? The premiums on Double Eagles over Spot are a **fraction** of what they were this time last year. $20 Libs and Saints graded XF are now at $325 and $340 respectfully compared to $385 and $400 a year ago.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, uncirculated rolls are usually mint sets sold by the bank. In the Jefferson series, some of the rolls in the late 40s tend to be dark (these bring lower prices), but most rolls are unsorted items taken directly from the Mint by dealers. Many rolls contain a considerable number of coins with attractive toning, and bands' rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls, dated pre-1965, being more plentiful than Jefferson rolls, particularly the 5-coin issues and worth more than listed prices. Bid-ask spreads may be found in the MARKET ALERT section. Answers to many questions about the coins and rolls can be found in the GUIDE BOOK OF U.S. COINS.

"Just a quick note to compliment you on the excellent article as submitted to CDN. As a coin dealer I am viewed as a somewhat biased individual when it comes to toning. However, it's different when the head of a grading service shares his views. While most experienced dealers or collectors appreciate the virtues of beautifully toned coins, many novices are stymied by the lack of information available in print. Your article does a service to original coins and to the industry in general.

"Every day at least one customer asks my opinion of the grading services. As you know, I am brutally up-front about everything life throws at us. In short, I rate the grading services on an "A to F scale". I give NGC a Rainbow toned A!

"I consider NGC to be the most accountable grading firm. You stand behind your product, you freely and publicly admit mistakes and you deal with issues that others shun. Simply stated, NGC represents the industry's leading grading service. Just keep an open mind and maintain your vision."

ANA MONEY SHOW RINGS IN PHILADELPHIA
POSITIVE COLLECTOR BASE CAUSE FOR INCREASED EXPECTATIONS

The Market in Depth

An active market is seen as we approach the American Numismatic Association annual summer convention. This year, the ANA World's Fair of Money is being held in Philadelphia, a true numismatic city as it is the home of the Philadelphia Mint. The August 9-13 show and auction will attract rare coin dealers from all over the United States and other countries to the Pennsylvania Convention Center. Also, there will be many collectors and investors attending from throughout the heavily populated eastern U.S. metropolitan area.

Heritage will be conducting the Philadelphia 2000 Signature Sale Aug 6-7 featuring five collections including the C. Louis Bassano collection of Mercury Dimes. Also in Philadelphia, Bowers and Merena will conduct the American Numismatic Association Sale of the Millennium August 9-12. This sale has everything from the discovery specimen of the Fifty State Quarter/Sacagawea Dollar "Mule" to a classic rarity, a Proof-63 1838-O Capped Bust Half Dollar. Expectations for both sales are high due to the recent strong interest that the public has shown towards collecting.

Silver Commemoratives continue to climb as Bids have increased once again. The increased demand is for quality, brilliant white Mint State examples grading MS64 and better. We also note that savvy dealers are happy to buy attractive, originally toned examples to place with their customers. Still, those coins that are darkly toned or artificially toned continue to be discounted.

Collector demand from an increased collector base, is, in part responsible for the positive movement in Bid for Circulated Type. Seated Half Dimes, Liberty Nickels, Standing Liberty Quarters and Draped Bust Dollars are few areas attracting higher Bids. In addition Circulated common date Morgan Dollars are up in grades Very Good through About Uncirculated. Rolls of Buffalo Nickels are also in need, sporting some nice increases. Many of these Nickels along with Circulated Indian Cents are processed for use as coin jewelry. Currently dealers are Bidding $5 per 40-coin roll of dateless Nickels up to $14 for rolls of Good to better quality.

This Week's Market

MERCURY DIMES: Bids remain steady with no increases or decreases to report. Several dealers are comfortable supporting this market at the present level. When the occasional better date becomes available it is quickly snatched up without hesitation.

WALKING LIBERTY HALVES: We last reported that several of the early better dates were moving higher. This week we see the later short set dates making their move. Various issues from 1942-1946 are Bid up to 5% higher in grade MS64. The balance of the Walker market remains generally healthy.

DOLLARS: Generic Morgans with a condition of XF thru AU are receiving the majority of attention, with slight increases appearing in this issue. Common dates grading MS63-MS65 are solid at their new levels from a couple weeks ago. SBA Dollars are inching higher for all 1981 issues, Uncirculated and Proof. American Silver Eagles are mixed with a number of market makers participating.

PROOF SETS AND MINT SETS: After week after week of increases Proof Sets are somewhat quiet, with only the 1999 sets up slightly. The Mint Set market is also fairly quiet, uncharacteristic of the previous several weeks. Some profit taking may be occurring in these areas.

COMMEMORATIVES: Silver Commems are following in the footsteps of Gold Commems with several advances displayed again this week. The glut of the action is for grades MS64-MS66. Gold Commemoratives remain extremely sought after. Modern Commems show little in the way of change from the last issue. Two Coin Sets containing Matte proofs continue to climb.

TYPE: Circulated Type is presently receiving some increased action. Liberty Seated Half Dimes and Type 2 Standing Liberty Quarters are in need. The Proof and Mint State areas of the Type market are steady with current interest focused on Seated and Bust coinage.

GOLD: Once again Gold Type has weakened even further. Double Eagles are lower virtually across-the-board no thanks to a lower spot. $10 Liberty and Indians are also hit this week with lower Bids in MS60. High Reliefs are the exception with continued strong dealer demand.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen in "raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks encountered by the Editors during the week. Prices reported are for single coins in an assumed average state of preservation within the grade. A dealer may bid for a particular coin that is better than average for the grade, but will not pay more than the average price for the grade. Conversely, a dealer may offer to sell a coin that is lower than average for the grade, but will not sell it for less than the average price for the grade. Prices reported consider activity in the certified sight unseen market, which already includes considerations of eye appeal, luster, color, etc. Prices reported are not those of any particular dealer, nor are they those at which the Editors would offer to buy or sell that coin. The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 Choice BU: Brilliant Unc., may exhibit some toning, but it should not be so dark as to hide any problems; will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, [illegible] major distractions in field or on main devices. Attractive toning permissible. A very rare grade of available BU coins make this [illegible] grade. Must have eye appeal.

MS67 Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint Issue Mirrors, but with the additional luster of deep mirror surfaces on both sides.

TYPE IN DEMAND AS ANA NEARS
STATE QUARTERS KEEP MARKET VIBRANT

The Market in Depth

With the American Numismatic Association's Money Show just around the corner, dealers are making last minute deals in preparation for the major show. Dealers are hoping for a successful show in Philadelphia and many of those hopes are tied to their ability to buy the coins they need at a reasonable price. Trading on the electronic dealer networks has slowed as the big show nears. Many dealers have already left for the show and a reduced staff remains behind to man the fort.

Light trading activity was evident in the market although demand was seen for some areas. Morgan Dollars seem to always receive their fair share of the activity and this week was no different. Interest is taking place for key and semi-key dates of the series. Dealers are placing Bids for Circulated examples in Very Good thru About Uncirculated. In some cases, sliders are especially sought-after. Among some key and semi-key dates such as 1886-O, 1889-CC and 1891-CC, quantities are being requested. In most cases, dealers are looking for coins to be relatively problem-free no matter what the level of preservation. Eye appeal is an important consideration to their knowledgeable customers and those coins that meet this criteria are receiving the strongest Bids.

Another area of the market that has been among the leaders throughout the year is Mint State Type. This week, plus signs are found in many denominations. Dealers are increasing Bid for MS63 and better Type. Many collectors and collector/investors enjoy this way of collecting when it comes to rare coins. It allows them to own examples of many different designs and denominations at a fraction of the cost of completing sets of series. This week, interest is strong for a variety of denominations from 2-Cent pieces thru Barber Half Dollars. The Liberty Seated design is very popular with Half Dimes, Dimes and Quarters displaying plus signs. Early coinage is hot as well. Draped Bust and Capped Bust Half Dimes are in demand along with Capped Bust and Reeded Edge Half Dollars.

The main reason behind the strong market continues to be centered on the Fifty State Quarters. Dealers report that the demand continues to be very strong and still growing. Many of the people who are saving these coins have never been a collector, but they are doing so for their children and/or grandchildren. Regardless of why they are doing it, the hobby continues to benefit from the interest.

This Week's Market

CENTS THRU HALVES: The BU Roll market continues to impress. The amount of activity in this area of the rare coin market is ten fold from just a couple years ago. The Fifty State Quarter Program is without question the reason for this revitalization of this market. Now the U.S. Mint is getting into the BU Roll business. First with the release of Sacagawea Dollar rolls in U.S. Mint "Bumble Bee" wrappers, now they are scheduled to sell P and D Roll Sets of the New Hampshire State Quarter.

MERCURY DIMES: Winged Liberty Dimes remain solid at current levels. With no increases or decreases to report this week, we can say that dealers remain in dire need of quality high grade specimens.

WALKING LIBERTY HALVES: Short Sets are up again as previously reported here several times throughout the year. This section of the Walker market seems to be strengthening with slight increases occurring more frequently than not. Short Sets of MS64 quality are now Bid $1,043.

DOLLARS: Generic Morgan Dollars continue to be somewhat soft. However, better date premium quality examples continue to enjoy strong demand. Dealers have no qualms of offering levels over Bid for these above average coins. Morgans achieving the Very Good grade and better are receiving higher Bids currently up to $9.50. Proof Susan B. Anthony Dollars are higher this week for 1979-1981 with the 1999 Proof issue still available from the U.S. Mint.

PROOF SETS AND MINT SETS: A second week of virtual silence is occurring in the Proof Set and Mint Set markets. Several factors may be the cause for a sudden slowdown in volatility. One such factor is the upcoming ANA Convention, with dealers busy preparing their inventories. Some of these dealers have pulled their current active Bids until after the show. A couple bright spots do occur in the Mint Set chart – 1974, 1981 and 1985 are all higher.

COMMEMORATIVES: Gold Commemoratives continue to be firm with several Bidders perusing this series. A couple issues are higher in the Silver Commemorative series. The 1951 Booker T. Washington Sets are higher in Brilliant Uncirculated to Choice Brilliant Uncirculated condition.

TYPE: Uncirculated Type is on the move with several issues displaying an increase in Bid. The increases are mostly minor, though the number of issues sought after is major. Any well struck lustrous examples grading MS63-MS65 with a value of $500-$5,000 is quickly and easily saleable.

GOLD: Gold Type is again lower this week, even after several similar reports in the preceding weeks. Dealers specializing in this area are experiencing a very tuff time. Several reports have suggested that a number of coins from private Y2K emergency holdings have made their way back on the market. These buy backs continue to increase the current supply which in turn is satisfying the present demand.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, reflecting all types of transactions and values from sight-seen "raw" uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight unseen market, which generally includes some premium over Bids for sight-seen coins. Your Bid may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid/Ask levels to the following week's publication if Bids and Asks are unaffected or Bids which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. If you are purchasing coins at a retail transaction, you may also contemplate a Dealer for your purchases.

BUSY IN PHILLY – ANA ACTIVE
DEMAND STRONG FOR EARLY HALVES, DOLLARS

The Market in Depth

The ANA's Money Show is now underway in Philadelphia. This giant summer show has attracted dealers from all over the country. Earlier reports from the pre-ANA Show indicate a lack of original material. This situation has now carried over to the ANA Show. This has been the main complaint of dealers throughout the year. It is definitely a sellers market, with any fresh material being quickly bought. After several weeks of considerable weakness Gold is once again trading. Several transactions at these lower levels occurred at the pre-ANA. Heritage realized $413,292 from their August 5th Bullet Auction of certified coins. Their August 6-7 Signature Sale has also ended, bringing a total of $4.5 million. The second Sacagawea/Washington Mule to be auctioned was in this sale and brought $31,050.

The summertime nor Gold has not slowed down the rare coin market. We see strength in a number of series and denominations. Demand for early Silver Type Half Dollars and Dollars jumps out at us this week. Dealers have increased Bids and in some cases substantially in an attempt to buy these late 18th and early 19th century coins. We see that the initial year, 1794 of the Half Dollar denomination is increasing in Good thru Very Fine. Interest is also seen for a couple of better date XF Draped Bust, Heraldic Eagle Halves. Again, it is the first year of the Type catching Bidders attention. Demand for Capped Bust Halves is more widespread throughout the series.

Demand is evident for Flowing Hair, Draped Bust Small Eagle and Heraldic Eagle Dollars. You can bet that many of these coins are earmarked for Type collectors. Dealers believe these to be undervalued and they are posting significant Bid increases hoping to add some to their inventories and/or fill customer want lists. The Flowing Hair and Draped Bust, Small Eagle Dollar is needed in Fine thru XF. Draped Bust, Heraldic Eagle Dollars are badly needed as well. Dealers are trying to buy Fine thru AU examples and are raising their Bids in order to be successful. These Circulated grades are sought-after for two reasons. The first is that they are much more affordable than the Mint State examples. Secondly, they are much more available in Circulated grades than in Uncirculated.

This Week's Market

MERCURY DIMES: Dealers have customers for a few of the toughest dates from the Mercury Dime series. However it is difficult finding the key dates in no problem condition of XF or better. This material received strong prices at recent auction.

WALKING LIBERTY HALVES: Walking Liberty Half Dollars are stable with dealers waiting to pounce on quality early key and semi key dates when they become available.

DOLLARS: The 1921 Morgan Dollar along with common date Peace Dollars weakened in Circulated condition. With Silver bullion weak trading below $5 per ounce, it is no wonder Bids are decreasing. Still, dealers are maintaining a fair number of Bids for many dates in hopes of buying no-problem examples that have eye appeal. There seems to be a relentless demand for this type of material. Key dates are needed with only the most attractive premium quality examples realizing the big bucks. Rumors of the U.S. Mint selling out of 2000 Proof Silver Eagles has caused an explosion in Bid now at $35 (up 59%). The entire series of Proof Silver Eagles is extremely active with a number of market makers participating.

PROOF SETS AND MINT SETS: Looking at the chart for Mint Sets and Proof Sets with a lack of the usual number of plus signs may give you the wrong impression. There are several dealers looking to buy and sell these sets. This market is strong and demand is certainly omnipresent. This is true for early Proof and Mint Sets as well as the later dates. 1999 Silver Proof sets have jumped again, now Bid $56.

COMMEMORATIVES: Gold and Silver Commemoratives are attracting Bidders at current levels. There is much support for many design Types and grades over the large Silver series. The same is true for Gold Commems even though it is a very short series. Modern Commems continue to attract buyers at these levels. Demand is solid with new collectors entering the market every day.

TYPE: Type is one of the strongest segments of the entire rare coin market. Dealers have many customers working on Proof, Circulated and Mint State Sets. Early Circulated Silver Type is especially sought-after. In this category, we see increases for early Half Dollars and Dollars.

GOLD: Gold Type has definitely been weak. Minus signs have become a regular part of our chart. However, most seasoned collector/investors know how quickly markets can turnaround. Many dealers believe that Type Gold offers patient collector/investors a lot of potential at the relatively low current levels.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all periods, trends, and offers to buy and sell coins sight-seen or raw, uncertified, but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest buy Bids and lowest sell Asks at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already includes consideration of certification costs. Bids may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the addition or subtraction of the high bidder, nor will it report Asks which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a substantial premium over these prices when purchasing coins in retail transactions; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60–Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 Choice BU: Brilliant Uncirculated coin, with some toning, but it should not be so dark as to hide any problems, will have minor bagmarks and may show weakness of strike. Above average coin.

MS64–Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65–Gem BU: Sharp, full strike, full lustre, NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67–Superb: Will be 100% fully struck and virtually perfect in all other respects. Pieces of such seldom encountered specimen are based on merits of each coin. They range from very rarely known according to date.

RECORD ATTENDANCE AT PHILLY ANA
SALE OF THE MILLENNIUM REALIZED $7 MILLION

The Market in Depth

The 109th Anniversary Convention of the American Numismatic Association World's Fair of Money brought in 20,807 people, a new attendance record for summer ANA shows. Public and collector/investor interest were very strong during the August 9-13 Philadelphia extravaganza. Dealers were very pleased with their retail sales during the show but less pleased with their wholesale activity. Some dealers believe that the overall wholesale market is a bit slow. A couple of the reasons cited include dealer summer vacations and flat Spot metal prices.

Generic and rare date Gold market weakness was voiced by many dealers. Some Gold specialists think that the attention and concentration devoted towards the sale of the SS *Central America* coins is playing a part. The effort taking place to market these coins has left other better date Gold on the back burner. Consequently rare date Gold is flat. Specifically, the Charlotte and Dahlonega Mint issues are cited as being very soft. Though, dealers are quick to say that special Gold rarities with eye appeal are still very salable. Coins that have problems are being discounted quite heavily or just left unsold.

Bust Dollars were on fire at the ANA. Dealers are now doing everything they can to buy no-problem attractive XF and better Bust Dollars. Nice AU examples are especially in demand. It appears that a new generation of collectors are among those targeting these Dollars. Collector coins are very strong. Circulated key and semi-key date Indian Cents, Lincoln Cents, Buffalo Nickels, Mercury Dimes, Standing Liberty Quarters and Walking Liberty Half Dollars are some of the collector favorites. Liberty Seated coins are also hot. Collectors are trying to buy tough dates from the different Liberty Seated denominations. Barber coins are quite collectible at current levels. Collectors demand also pushed the price of a one-of-a-kind, discovery 1901 Lesher Referendum Dollar to $27,600. The Silver, Imprint Type, a Type of Zerbe-5 in XF was purchased by Woodland Hills, CA dealer Brad Rodgers. The sale occurred during the Bowers and Merena "Sale of the Millennium" ANA auction. The Bowers and Merena auction realized nearly $7 million.

This Week's Market

CENTS THRU HALVES: Plus signs seem to be a regular occurrence for BU and Proof rolls. Washington Quarters are the most impressive with many dates increasing this week. Strength is also seen for select Lincoln Cents, Jefferson Nickels, Roosevelt Dimes and Half Dollars.

MERCURY DIMES: Interest for Mercury Dimes is at a high. Collectors battled vigorously to set a record price for a 1919-D in Philadelphia. Many other key and semi key dates were the target of this strong demand. Overall, prices for select Mercury Dimes are very strong.

WALKING LIBERTY HALVES: Demand for well struck Walking Liberty Half Dollars is noticeable. Those better dates that meet this criteria are realizing strong Bids. Early key and semi-key dates of the series continue to attract serious attention at public auction.

DOLLARS: Demand is strong for Circulated Carson City Morgan Dollars. These cart wheels are needed in VG thru AU. However, buyers are willing to make offers for examples that grade below VG. Dealers are looking to buy AU Morgans in quantity. Weakness is seen for some better date Morgans in the higher Mint State grades. Common date Peace Dollars are down slightly this week. The Philadelphia Mint issues from 1922 thru 1925 now have a high Bid of $72.

PROOF SETS AND MINT SETS: Demand is strong for early Mint Sets from 1947 thru 1958. Dealers are willing to pay higher prices for original matched sets of these early dates. The same situation is evident for early Proof Sets. Generally, the Proof Set and Mint Set markets are doing very well. There are many Bidders for sets in quantity at current levels. Plus signs continue to take place as dealers need to fill orders.

COMMEMORATIVES: After many weeks of activity the Silver and Gold Commemorative charts are relatively calm. However, this may be the calm before the storm as buyers are looking to add attractive Silver and Gold Commems to their portfolios and/or collections.

TYPE: The fact that no plus or minus signs are appearing on our chart may be misleading. We know that dealers are working on Type collections for many customers. Collectors may go several weeks or months before that special coin is found. Buyers are quick to act when an attractive Type coin becomes available. Proof and Mint State Type have become one of the most collected areas of the rare coin market.

GOLD: Generic Gold continued to flounder at the ANA in Philadelphia. Except for higher grade $20 Saints, quantities of common date Gold in most denominations were readily available at the ANA. Consequently, minus signs again are seen on our chart. The MS63 and MS64 grades are the weakest at the current time for most denominations.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen or "raw" (non-certified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not represent the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes a premium over sight-seen. They may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding activity of the high buyer, but will change Bids if sight-seen are higher or sight which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask prices for a retail transaction. You may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GOLD COMMEMORATIVES STRONG
$80,000 FOR AN 1893-S MORGAN

The Market in Depth

Dealers have specific needs and they are willing to pay strong money, to buy coins representing an excellent value. Coins that are attractive, with strong eye appeal and bursting with original Mint luster continue to command top dollar. On the other hand coins that are darkly toned, fingered, baggy or spotted bring far less.

As most Morgan Dollar collectors know, the 1893-S is highly sought-after in all grades. It is one of the most prevalent dates to adorn customer want lists. That is why it is not surprising that a PCGS MS63 traded for $80,000. The new owner, a west coast Dollar specialist is now asking $95,000 for his gem. However, we notice weakness for some dated Morgans in MS64 and better grades. This weakness is also noticeable for several Deep Mirror Prooflike Dollars. The softness was evident at recent public auctions. Yet, solid Bids for select dates continue to take place in this market. Dollar specialists suggest that it is only a matter of time before strong demand will force prices higher.

Interest is taking place among Proof and Mint State Type. This segment of the rare coin market has proved to be a popular venue as it allows collector/investors to obtain a diverse group of rare coins. Dealers are buying Type to add to their inventory trying to anticipate the demand. Liberty Seated and Barber coinage are a couple areas that remain strong. Dimes through Half Dollars are among the most actively traded denominations. Proof 65 and better coins are very salable at the present time. Increases are noted this week for Three Cent Nickels and Two Cent Pieces.

Gold Commemoratives are the target of higher Bids again this week. Dealers are still trying to buy these Commems and find that they need to increase their Bids once again. Demand remains strong and dealers are hopeful that increased Bids will translate into completed transactions. The interest is seen nearly across-the-board for these Commems. The relatively short series makes these popular, as does the four-figure price range of most of the dates in MS65 and better.

This Week's Market

MERCURY DIMES: A few Bid jumps are present for late date dimes in MS65. Common dates remain unchanged at $17 in MS65 and $27 for those displaying Full Split Bands. Museum quality examples grading MS66FB through MS68FB are receiving the most attention.

WALKING LIBERTY HALVES: Higher dealer Bids have translated into plus signs for a couple early issues. Solid support remains present for several better dates grading MS64 and MS65. A complete set of Walkers in MS64 continues to hover around the $100K mark. Short-set dates continue to exhibit dealer demand.

DOLLARS: Morgan Dollars are off slightly in lower circulated grades and mixed in higher grades. Peace Dollars are weak in circulated grades with VG examples Bid $5.75. Common dates in MS64 are also lower. Uncirculated American Silver Eagles are lower for most dates. The action has intensified for Proof Silver Eagles. The 1999 and 2000 dated issues are both up again to $50 and $40 respectfully.

PROOF SETS AND MINT SETS: Early Proof Sets are taking the spotlight this week. Original sets dated 1950 through 1955 are the stars. Several of the later date Silver sets are down slightly. Mint Sets are sought after in quantity for virtually any date from 1959 through 1998. These areas of the coin market have remained hot due in part to the surge of *"perfect"* slabs.

COMMEMORATIVES: Gold Commems are at it again! Increases are present across-the-board for almost every issue. The current demand for these issues far outweighs the available supply. As increases continue fresh material will eventually be flushed out and back on the market. Silver Commemoratives are healthy with several plus signs appearing throughout our chart. Modern Gold Commems are showing a few minus signs from a lower Gold spot. As reported over the past months, sets containing Matte finish coins are **hot**. All three sets are up again and are needed in quantity.

TYPE: The Circulated Type market has received an increase in attention. Type 1 Standing Liberty Quarters are now receiving Bids up to $15 for coins grading Very Good. Circ Buffalo and Liberty Nickels have also gained from new dealer interest. Proof Type and Uncirculated Type continue to show solid support.

GOLD: A few plus signs are present for circulated Gold in small denominations. After months of minus signs Half Eagles through Double Eagles are even lower this week.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green label PCI Bids are for slabbed coins only. INS bids are for blue certs. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks sight-seen by the compilers without the benefit of a specific offer at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already includes [illegible] and may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but only as averages influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

See us at all Major Shows

YOU'LL BE HAPPY TO KNOW THAT THERE IS A LOT OF CASH IN CALIFORNIA AND MOST OF IT IS AT SPECTRUM NUMISMATICS!

Spectrum Numismatics, one of the largest buyers of rare coins in this country, desperately needs your coins. Whether it's an 1804 Dollar, or a $30 common date Morgan Dollar. Spectrum desperately needs to buy **all** of your coins. The *King of Cash* must spend over one million dollars per week to satisfy its coin hungry clients. In fact, lately, there have been many days when Spectrum's customers have purchased more than half a million dollars worth of coins in a single day! The *King of Cash* has no choice. Spectrum must buy your coins or lose its customers. That's why Spectrum can treat you like no other coin company can. That's why you can sell your coins to the *King of Cash* and then smile all the way to the bank.

HERE'S WHAT YOU WILL GET FROM THE *KING OF CASH*

Every time you sell coins to Spectrum Numismatics, you can be sure you will receive the following:

1. The absolute highest possible price for your coins. Spectrum must buy your coins to keep its clients satisfied. Nobody pays more than the *King of Cash*!
2. Immediate payment. Spectrum Numismatics is one of the best financed rare coin companies in history. The *King of Cash* can pay you on the spot, wire your bank, or Federal Express you a check.
3. Spectrum wants to buy your uncirculated pre-1950 coins. That's why our name is Spectrum, we buy it all. Spectrum's diverse mix of world-class numismatists are experts in all types of coins.
4. If you bump into a deal and don't want to get involved, you can still make money by helping Spectrum purchase the deal. We pay extremely generous finder's fees to everyone who helps us buy coins. In 1998, Spectrum paid $3,129,104 in finder's fees and commissions!

DO IT FOR THE MONEY!

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949)955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

Tells why more people are turning to PCI

☐ **PCI** accepts <u>direct submittals</u> from the general public, collectors and dealers. There are no <u>minimum or maximum</u> submittal requirements.

☐ **PCI** recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our <u>exclusive</u> attribute **PQ** (premium quality) to those coins that qualify.

☐ **PCI** provides our <u>original</u> "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ **PCI** offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of $8.00 per coin, plus postage and insurance.

☐ **PCI** excels at providing the highest quality customer <u>service.</u> We will go the extra mile to meet the needs of our <u>customer, and our service is backed by our guarantees!</u>

☐ As a special bonus - **PCI** provides a **<u>FREE</u>** storage box when twenty (20) coins are submitted. ($5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Single copy price $4.00 Vol. XXXVIII No. 35 September 1, 2000 *...a Friday morning report on the Coin Market*

BUSY FALL ACTIVITY BEGINS
BIG MONEY WAITS TO ENTER MARKET

The Market in Depth

As September begins, we find the rare coin market to be in pretty good shape. Most dealers will be returning from vacations prepared to gear up for the important Fall auction and show schedulc. Sevcral dealers feel that the market is doing very well although it is highly selective. Sophisticated collector/investors are actively trying to buy coins for their collections and/or portfolios. We know that want lists continue to circulate. The strongest buyers are looking for coins that have eyc appeal and surfaces that are relatively free of heavy marks or scratches. Coins that possess nice eye appeal can receive stronger Bids than their otherwise technical grade would indicate. That is because the coin's look can make up the difference for some minor imperfections that usually count against its technical grade.

There are some areas of weakness in this market that continue to be problematic. Gcneric Gold is still having trouble climbing out of the rut that has plagued it for many months. Gold bullion is still trading at relatively flat levels without showing any significant signs of breaking out of its weakened state. This weighs heavy on any buying dccision of investors/collectors. There are a few willing to take the risk because they believe the current levels to be quite attractive. However, the wait can be painfully acute if this doldrums tendcncy continues for any prolonged period of timc

On the one hand Circulated, Mint State and Proof Type are in demand. On the other hand, discounting can still be scen taking place, even among higher grade Type. Selectivity has become very important in the decision making process of buying a rare coin. Coins that look tired and/or lifeless for the grade are realizing lowcr Bids. Coins that are fresh and lustrous can expect quite a different sccnario. Make no mistake about it, there is plenty of money sitting on the sidelines waiting for the right coins. A portion of this money may appear as auction prices realized, sight-scen Bids or via private transaction. In any evcnt, the expanding collector base is poised to impact this demand even further by putting an even greater pressure on supply. Eventually, something has to give.

This Week's Market

CENTS THRU HALVES: BU and Proof rolls are still active and in demand. There has been some selling off of Silver Dimes and Quarters from 1960-64 due to a lower Silver spot. Fifty State Quarter rolls are down this week. The early 1999 release states are dropping slightly. Both Philadelphia and Denver Mint coins are affected

MERCURY DIMES: We see several plus signs taking place in the MS65 column for some of the latter dates of the series. Consolidation is the order of the day throughout much of the series with a few isolated pockets of discounting seen

WALKING LIBERTY HALVES: Some discounting is taking place among the Walking Liberty Half Dollars. These sales appear to be more concentrated among the higher grades. The MS65 category seems to be the most affected by this discounting

DOLLARS: Dealers are willing to pay more to buy pre-1921 common dates grading XF and AU. They are looking for problem free examples and hoping to buy quantities at this level. Gem quality key and semi-key dates are steady at current levels. Original Rolls of Morgan and Peace Dollars still command solid Bids. Availability of these rolls at this price is another story. The Peace Dollar series is solid at current levels. The emergency issue 1999 P and D Anthony Dollars have jumped in Bid with dealers paying $2,325 for mint sewn bags of $2,000 face value.

PROOF SETS AND MINT SETS: The market for early Proof and Mint Sets is super. Dealers are willing to step out and Bid aggressively for these sets. They are looking for average to above average quality and want these sets to be in their original Government holders. Generally, there is strong demand for Proof and Mint sets. Dealers are looking for quantity and the demand seems to be insatiable.

COMMEMORATIVES: Gold Commemoratives are enjoying continued prosperity. Although we do not see the large number of plus signs that took place last week, we do know that demand is strong. Dealers are trying to buy quality Gold Commems to fill the demand. Silver Commems are rather quiet. However, we know that demand is sufficient to support many of these dates at current levels. Dealers are looking for attractive, lustrous coins that have nice eye appeal.

TYPE: The Mint State and Proof Type markets are relatively unchanged. There is steady demand for exceptional quality coins at each grade level. Circulated Type is selectively strong. Strength is seen for Fine, Very Fine and Extremely Fine Dollars from 1795 thru 1803.

GOLD: Gold Type is very quiet. This market is trying to find a support level after all the selling pressure of past months. Opportunity may be its biggest selling point.
